

Butt Welding Machine

1. Introduction

Lint top is one of the most professional welding equipment suppliers in China and one of the national industry standard setters. Our butt welding machine is used to weld stranded conductors from 0.16 to 630mm² with great welding quality and high working efficiency.

2. Features

1. Adopt safety and reliable power switch.
2. All welding knots are smooth and no flying in the welding process.
3. The sensitive welding head can slide straight, and adopts ball bearing.

3. Technical Parameters

Model	LT-16A/B/C/D	LT-70A/B/C/D	LT-120A/B/C/D	LT-240A/B/C/D	LT-500A/B/C/D
Range of Wire(mm ²)	0.16-16	8-70	16-120	70 -240	95-500
