

# Laser Diameter Gauge

## 1. Introduction

The equipment is usually used to measure the diameter of the production line online, there are two types: Single-axis and double-axis. It can be equipped with remote feedback system and the feedback signal is sent to the host to control the stable operation of the whole production line.

## 2. Technical Parameters

Model	Effective Measuring Range (mm)	Measuring Accuracy	Structure
LT-25	0.2-20	$0.002 \pm 0.02\%D$	Single-axis
LT-60	0.4-45	$0.003 \pm 0.02\%D$	Single-axis
LT-100	0.5-90	$0.005 \pm 0.02\%D$	Single-axis
LT-25XY	0.2-20	$0.002 \pm 0.02\%D$	Double-axis
LT-50XY	0.2-45	$0.002 \pm 0.02\%D$	Double-axis
LT-60XY	0.2-55	$0.002 \pm 0.02\%D$	Double-axis
